CERTIFICATES

Front-End-Web development (06/2022 - 08/2022)

This certificate recognizes the successful completion of a front-end web development program. Through this program, I gained comprehensive knowledge and practical skills in front-end technologies such as HTML, CSS, and JavaScript. I have developed expertise in creating visually appealing and user-friendly web interfaces, implementing responsive design principles, and optimizing websites for performance. This certificate highlights my dedication to mastering front-end web development and showcases my ability to contribute effectively to building modern and engaging websites.

PERSONAL PROJECTS

Travelling Salesman using Dynamic Programming

- Developed an efficient solution to the classic optimization problem using dynamic programming. Implemented an algorithm to find the shortest route for a salesman to visit a set of cities and return to the starting point, minimizing total distance traveled. Demonstrates proficiency in algorithm design, optimization, and problem-solving.

HTML and CSS Website Project

- Designed and developed a website using HTML and CSS. Created visually appealing and responsive web pages with a user-friendly interface. Implemented custom styles, layouts, and animations to enhance the user experience. Utilized HTML semantic elements and CSS selectors to structure and style the content. Demonstrates proficiency in web design, HTML, and CSS skills.
